IMPORTANT NOTES: Students are required to sign in promptly at the start of recess in order to participate. Often, the class will move out to the school campus to take pictures, which is a special privilege and requires them to have signed in and wear their badge. For student safety, students *cannot* join up with the class out on campus if they are late. If a student has an unexcused absence during the first two weeks of class, they will not be able to continue with the program. This is due to the limited amount of time the instructor has with the students and the difficulty in catching them up. Any unexcused absences after week two will be handled on an individual basis. Due to the popularity of this program, all students should be committed to participating before signing up. Thank you for your understanding to make this a fun and educational experience for our Wellington students.
